

## Fees & Insurance

### Will my private insurance pay for Home Health Care?

Many private insurance carriers offer home health benefits. However, it depends on your individual policy. As with most health insurance plans, deductibles and co-pays may apply. Aspen is currently a contracted (network) provider for United Healthcare, Evercare, PacifiCare, and Secure Horizons. We also have ongoing relationships with most large insurers. Just ask us.

We will contact your insurer and determine the benefits available with your particular plan.

### What about Medicare reimbursed Home Health Care?

Medicare will reimburse for home health care in a wide variety of conditions, illnesses, or injuries including surgery, stroke, fracture, wound care, heart attack, diabetic management, and others. If you qualify, we will bill Medicare directly with no claims for you to complete.

### Can I pay Aspen directly for Home Health Care?

If you do not have private insurance coverage for home health care and do not qualify for Medicare home health benefits, we can bill you directly.
